

Installing EMIS PCS templates onto your system

Download the template from the escro website (save it to your desktop or preferred location).

To import the template into EMIS:

> From template designer in EMIS PCS

AC	Appointment Configuration	UM	User Manager
SP	Security Profiles	SM	Speciality Manager
DT	Dictionaries	TD	Template Designer
AV	Anti Virus Management	PO	Protocol Manager
PB	Protocol Designer		

- Highlight the folder where you want the templates to be placed (usually an Escro folder)
- Right click > select 'import'
- Navigate to the location holding your template (e.g. on your desktop where you saved it from the web download)
- Double click the file and accept OK when it says the file has been imported.
